

## **ENTANGLEMENT RULES**

Standard number of players: 6

Maximum # of players: 12

The game is played much like the TWISTER game. The spinner operator will spin the giant arrow and call out the command for the players to follow. Example: "Left foot red", then "right hand green", etc.

Each player obeys the commands that are called out.

The object is to move over into the other player's area to make it difficult for them to reach a called-out color.

The first player that falls is out and can either be replaced to keep the game going or, if playing elimination, the last player standing is the winner.

Players should remove their shoes and sharp jewelry.

**THIS IS NOT A BOUNCE AMUSEMENT; IT SHOULD NOT BE USED AS A MOONWALK AND NO ONE SHOULD JUMP OR FLIP ON THE INFLATED PAD.**
