# Happy Prospector GEM MINE

## Assembly Instructions

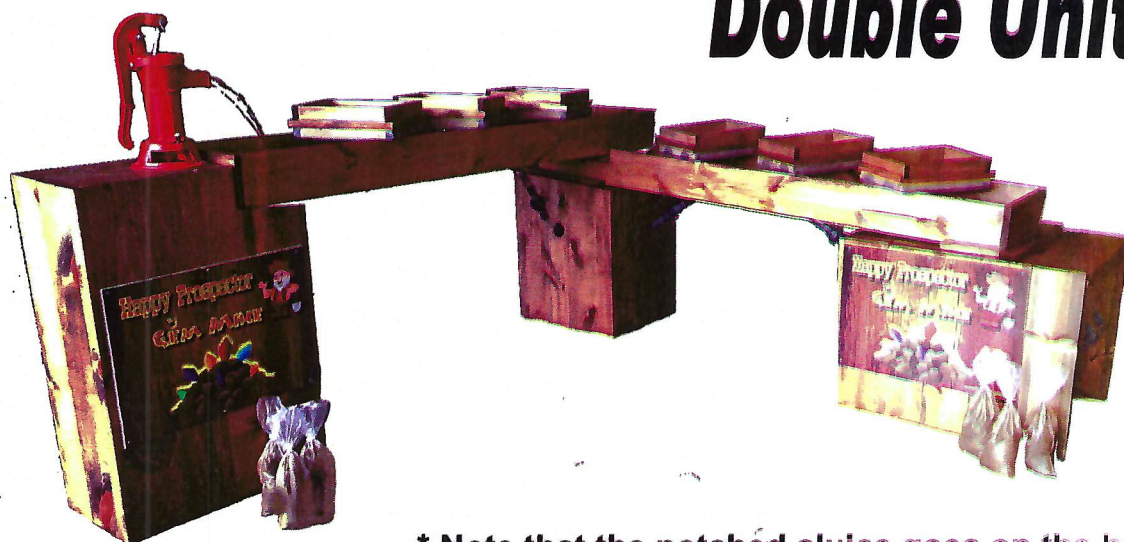

1. Select a level area to operate game. Be sure to select an area that is safe for water to be splashed.
2. Attach PVC tail piece to the sluice drain. Assemble boxes and sluice, per photo (depending on whether it's a single unit or a double unit).
3. Attach both ends of the hose (under the sluice).
4. Place pump inside the filter box and place inside the "Brute Box".
5. Plug the pump into the GFI, and plug the GFI into an outlet.
6. You may need to hold the pump under water until it fills with water and won't float to the top.
